How the Poll Was Conducted

The Times Poll contacted 1,372 adults nationwide by telephone Aug. 22-25. Telephone numbers were chosen from a list of all exchanges in the nation. Random-digit dialing techniques were used so that listed and unlisted numbers could be contacted. The entire sample was weighted slightly to conform with census figures for sex, race, age, education and region. The margin of sampling error for the entire sample is plus or minus 3 percentage points. For certain subgroups the error margin may be somewhat higher. Poll results can also be affected by other factors such as question wording and the order in which questions are presented.

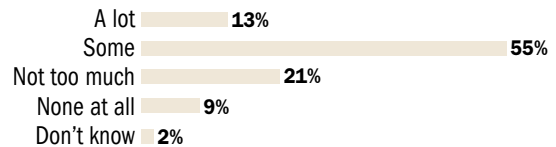

War on Terrorism

A bill was passed by the House to create a Department of Homeland Security. The new Cabinet department would combine federal agencies such as the Coast Guard, the Secret Service, the Federal Emergency Management Agency, the Immigration and Naturalization Service, the Customs Service and the Transportation Security Administration. A similar measure has yet to clear the Senate.

■ Are you in favor of or opposed to combining these agencies?

■ How much confidence do you have that a newly created Department of Homeland Security would be able to protect the country from terrorist attacks?

■ If President Bush decides to order U.S. troops into a ground attack against Iraqi forces, would you support or oppose that decision? (THOSE WHO SAID THEY WOULD SUPPORT THE DECISION WERE THEN ASKED) Would you continue to support it even if it resulted in substantial U.S. casualties?
